www.choiceangus.com

Welcome

Welcome to the 2021 Choice Angus 5th Annual Yearling Bull Sale

What an exciting time to be in agriculture with the turn around in seasons and a boost of confidence in the cattle market. This has certainly sweetened surviving the drought years and now the Covid pandemic and the positivity across the sector is encouraging to us all and has created an ideal opportunity to rebuild your herd through purchasing top quality bulls with the latest genetics.

Our operation is now solely located at "Coolowie" with the sale of our remaining Molong property back in May. We had intended to continue our sales in the Central West but with the continuing Covid uncertainty we made the decision to hold it online with Auctionsplus. We welcome everyone to an Inspection day on Wednesday 25th August at "Coolowie". We extend our deepest appreciation to our clients and repeat buyers for their continued confidence in our bulls over the last 10 years.

This year we are proud to present 56 quality Choice Angus yearling bulls to you. Our 2021 sale bulls continue to show great depth, bone and softness with exceptional temperaments and structure whilst balancing positive fats. Our 2021 draft offers new genetics through Musgrave 316 Exclusive, his calves are born small with high growth, good body length and thickness. There are 8 sons in the sale. Baldrige Beast Mode B074 continues to be a standout in the Angus breed selling sons all over Australia. His versatility means he can be used on heifers and cows and his calves are thick and weigh well. There are 17 sons in the sale. Milwillah Reality M208 has bred some very nice calves, he has 6 sons in the sale and 5 are suitable to be used on heifers.

On behalf of the Choice Angus team we thank you for supporting our 2021 sale and wish you the best of success with your purchases.

Kind Regards

Tim Brazier and the Choice Angus Team

Farmer focused.
Future driven.

Bathurst

Rural Bank was founded to support rural Australians and we're proud to be 100% Australian operated.

We're here for our farmers, their families and everyone who makes our rural communities grow and thrive.

We re-invest the money you deposit with us back into rural Australia to help farm businesses grow, now and into the future.

Sale Information

Location

“Coolowie” 2208 Eulourie Road, Pallal [Upper Horton] NSW 2404.

Inspection

Wednesday 25th August 2021 at “Coolowie” 2208 Eulourie Road, Pallal [Upper Horton] NSW 2404

Catering

Lunch and refreshments available on the Inspection day.

Insurance

It is strongly recommended that insurance is taken out on all purchases. Representatives will be available on sale day.

Health

All sale bulls have been vaccinated with 2 doses of Pestigard, Vibrovax and 7 in 1 and drenched with Cydectin Pour On prior to sale. All sale bulls have been vet inspected for structure and breeding soundness by Dr Hennie Strydom, Wellington Vet Hospital.

Guarantee

Choice Angus guarantees the structural soundness and fertility of their sale bulls. Choice Angus will provide a suitable replacement if available or a credit to the purchase value less salvage value if a bull is proven to be infertile or unable to serve naturally unless due to injury, illness or negligence for a period of six months from the sale date and must be accompanied by a vet certificate.

Yearling Bull Information

Using Yearling Bulls for Real Benefits

Nature intended bulls to work at 12-14 months of age as this is when they become sexually mature and are still light and agile enough to learn their new trade without a high risk of injuring themselves.

Bulls who are first put out as two year olds are at higher risk of injury as they are heavier when they are learning the trade.

Management

Yearling bulls are much easier to manage both in and out of the cows as they are out working when their testosterone kicks in and not in a mob of other bulls learning to fight and bully out of sexual frustration.

Joining Heifers

Just because he is a yearling bull does not make him a heifer bull. As with any bull, his effect on calving ease is determined

Delivery

Choice Angus will provide free delivery within 250km radius of Molong. Please inform us on your Buyers Instruction slip.

AuctionsPlus

Online sale only. Please register at least 24 hours before the sale. Contact David Simpson- Elders for more information.

Health & Safety of our Visitors (Rules and Advice)

All sale bulls have been screened for temperament and under normal circumstances are quiet to handle, however if an animal is stressed they can be unpredictable.

- Visitors enter pens at their own risk
- Children must not enter the pens
- Do not overcrowd the pens
- Be aware of your surroundings and keep noise and movement to a minimum

Disclaimer

All people entering this property for any purpose including the sale do so at their own risk. Choice Angus assumes no liability, legal or otherwise for any personal injury or death which may occur or for theft, loss or damage to property.

All reasonable care has been taken in compiling this catalogue however no responsibility is accepted for any errors that have occurred.

by genetics for birthweight and shape. However, suitable heifer bulls used as yearlings will mean less injuries in heifers as well. Due to their lighter weight they can be used over heifers for more years as you will have them for longer before they reach their mature weight.

Guidelines for using Yearling Bulls

- Don't put yearling bulls out with older and bigger bulls in their first year as the bigger bulls will injure the yearling bulls while they are serving.
- Only join to a maximum of 35 females in the first year.
- Only join for a maximum of 6 weeks in the first year.
- Ensure the bulls are up to date with parasite control and vaccinations.
