Welcome to our 2025 Choice Angus 9th Annual Yearling Bull Sale

It's our pleasure to welcome you to our 9th Annual Yearling Bull Sale here at Choice Angus. We've been fortunate with the weather this year, experiencing a dry summer, followed by much-needed rain from Cyclone Alfred, which has certainly set us up well. At the same time, our thoughts are with the farmers down south, particularly in southern New South Wales, Victoria, and South Australia, where the dry conditions continue to be a challenge. We know how tough it can be, and we stand with you in hope for a break in the season that will bring much-needed relief.

As always, the variability of the Australian climate continues to influence the industry, with the seasonal conditions often affecting market dynamics. However, we're optimistic that a shift in weather across the southern regions will lead to positive changes for everyone.

In line with this optimistic outlook, we are excited to offer 58 true yearling bulls in this year's lineup. Our breeding objectives focus on balance, always keeping the bigger picture in mind. As a commercial operation, we treat every female like a commercial cow, testing them rigorously to ensure they perform under the extreme weather conditions that Mother Nature can throw at us.

Featured Sires:

- Knowla So Right S48: The \$190,000 top-priced bull at the 2022 Knowla Sale, S48 produces soft, thick sons with ideal birth weight and outstanding carcass quality. His progeny reflect his top-tier genetics.
- Knowla Quantum Q41: Known for his lower birth weight and thick body, Q41 also carries good skin and an excellent carcass. He's a standout for those looking for efficiency and performance.
- Sterling Pacific 904: A deep, stout bull with square muscle, Pacific 904 ranks in the top 1% for all growth traits and boasts strong carcass attributes. He's an all-rounder with great potential.
- Millah Murrah Nectar N334: A sire we continually return to for his ability to breed very soft, stylish bulls with exceptional skin. Nectar also carries one of the most extraordinary pedigrees in the breed, thanks to the strong performance of his relatives.
- Millah Murrah Rocket Man R38: The \$280,000 son of Paratrooper, Rocket Man's sons are easy-doing, well-muscled, and soft-skinned. His progeny continues to impress with their consistent performance.
- Milwillah Identity Q104: Purchased in 2021, Identity carries a double cross of Reality. His progeny consistently inherit his softness, good muscle structure, and calm nature, with Reality's traits continuing to shine through.

Our inspection day will be held at the picturesque "Coolowie" property in the Horton Valley, home of Choice Angus on Wednesday 27th August, we encourage you to come and view the sale bulls in a relaxed and friendly atmosphere with refreshments provided. Tim and Rebecca along with David Simpson- Elders Bathurst, Richard Gleeson and Justin Oakenfull -Elders Inverell will be present to ask any questions you may have.

On behalf of the Choice Angus team we thank you for supporting our 2025 sale and wish you the best of success with your purchases.

Kind Regards,

Tim Brazier and Rebecca Brazier

SALE INFORMATION

Location

Choice Angus Stud is located at "Coolowie" 2208 Eulourie Rd, Pallal (Upper Horton) NSW 2404.

Inspection

Wednesday 27th August at "Coolowie".

Catering

Lunch and refreshments will be provided by Choice Angus on inspection day.

Insurance

It is strongly recommended that insurance is taken out on all purchases.

Health

All sale bulls have been vaccinated with 2 doses of Pestigard, Vibrovax and 7 in 1 and drenched with Cydectin Platinum prior to sale. All sale bulls have been vet inspected for structure and breeding soundness by Dr Hennie Strydom, Wellington Vet Hospital. They have also had crush side semen and morphology testing conducted.

Guarantee

Choice Angus guarantees the structural soundness and fertility of their sale bulls. Choice Angus will provide a suitable replacement if available or a credit to the purchase value less salvage value if a bull is proven to be infertile or unable to serve naturally unless due to injury, illness or negligence for a period of six months from the sale date and must be accompanied by a vet certificate.

Delivery

Choice Angus will provide free delivery within 250km radius of Upper Horton.

AuctionsPlus

The Choice Angus Sale is online only. Please register at least 24hrs before the sale.

Contact David Simpson (0427 399 362), Justin Oakenfull (0428 569 128) or Richard Gleeson (0408 691 489) for more information.

Health & Safety of our Visitors (Rules & Advice)

All sale bulls have been screened for temperament and under normal circumstances are quiet to handle, however if an animal is stressed they can be unpredictable.

- Visitors enter pens at their own risk
- Children must not enter the pens
- Do not overcrowd the pens
- Be aware of your surroundings and keep noise and movement to a minimum

Disclaimer

All people entering this property for any purpose including the sale do so at their own risk. Choice Angus assumes no liability, legal or otherwise for any personal injury or death which may occur or for theft, loss or damage to property.

All reasonable care has been taken in compiling this catalogue however no responsibility is accepted for any errors that have occurred.

YEARLING BULL INFORMATION

Sire Verification

Please note that a number of lots in this year's sale are awaiting Sire Verification which will be completed early September. If you have any concerns, please contact Tim directly on 0427 625 996.

Using Yearling Bulls for Real Benefits

Nature intended bulls to work at 12 - 14 months of age as this is when they become sexually mature and are still light and agile enough to learn their new trade without a high risk of injuring themselves.

Bulls who are first put out as two year olds are at higher risk of injury as they are heavier when they are learning the trade.

Management

Yearling bulls are much easier to manage both in and out of the cows as they are out working when their testosterone kicks in and not in a mob of other bulls learning to fight and bully out of sexual frustration.

Joining Heifers

Just because he is a yearling bull does not make him a heifer bull. As with any bull, his effect on calving ease is determined by genetics for birthweight and shape. However, suitable heifer bulls used as yearlings will mean less injuries in heifers as well. Due to their lighter weight they can be used over heifers for more years as you will have them for longer before they reach their mature weight.

Guidelines for using Yearling Bulls

- Don't put yearling bulls out with older and bigger bulls in their first year as the bigger bulls will injure the yearling bulls while they are serving.
- Only join to a maximum of 35 females in the first year.
- Only join for a maximum of 6 weeks in the first year.
- Ensure the bulls are up to date with parasite control and vaccinations.

ATTENTION BUYER

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

PARENT VERIFICATION SUFFIXES

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name. The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV : both parents have been verified by DNA.

SV : the sire has been verified by DNA.

DV : the dam has been verified by DNA.

: DNA verification has not been conducted.

E : DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

PRIVACY INFORMATION

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

* TTThe percentile band represents the distribution of EBVs across the 2023 drop Australian Angus and Angus-influenced seedstock animals analysed in the Mid July 2025 TransTasman Angus Cattle Evaluation

NOTES

AuctionsPlus®

Australia's Livestock Marketplace

Can't make the sale?

Purchase online in eight simple steps!

Log on to AuctionsPlus and bid on your phone, tablet or computer.

1

REGISTER ONLINE

Free once off registration for all auctions.

2

COMPLETE BUYER INDUCTION

The buyer induction will help you understand the roles and responsibilities of everyone on the AuctionsPlus system.

3

VIEW CATALOGUE

View photos, videos, pedigrees and more.

4

ENTER AUCTION

Log into the auction anytime, anywhere and bid on your mobile, tablet or computer.

5

AUTO BID

Can't stay for the whole sale? Set your maximum bid on the lot that you want to purchase and let the computer bid for you.

6

CONTACT SELLING AGENT

If successful, contact selling agent to arrange payment and delivery. The agent contact details will be in the catalogue header.

7

PAYMENT

Via the selling agent's terms and conditions.

8

DELIVERY

Arrange transport of livestock at your expense.

Contact AuctionsPlus on (02) 9262 4222
